Subject: Re: SLN research

Ok thanks.

That's sounding useful. In addition - please probe around in a few others places; 1. The file room for historical docs; 2. AAPCO-SFIREG web sites and 3. WA, CA and FL state sites.

What I think would be especially useful is primary documents versus interpretations or summaries.

But thank you for this.

Hi Dan –

I wanted to touch base on this. I've gone over the FR notices as follows and excerpted parts I think may be pertinent:

9-3-75: Notice of Proposed Interim Section 24(c) program
8-7-79: Proposed Rule for 24(c) regulations for public comment
1-7-81: Final Rule for 24(c) regulations

I've also found a couple other sources with information that might be relevant (the 24(c) guidance/FAQ of course, but also a Fact Sheet on Pesticides Sales in E-Commerce (March 2004) that mentions how some pesticides may be regulated more stringently by the states than by EPA).

I've also gone through the regulations carefully and pulled out a few things that seem to be relevant.

I was going to continue searching the internet for other sources that might be out there, and look over NY pesticide regulations to see what's mentioned there.

Right now I have about 5 pages of excerpts and references that I plan to put into more of a coherent summary.

Do you have any more input at this point, or preference on how to present this information for you? It would probably be good to go over in person (or by phone, I'm teleworking today but will be in the office tomorrow).

Please let me know – Thanks!

Andrea
